

FAA Safety Team, EA-63 FSDO presents:

# **Building and Flying Experimental Amateur Built Aircraft 100 Seats Available**

Changes: 100 Seats added. Please Register and Attend. Greg Prentiss, FAA Designated Airworthiness Representative for Amateur Built - Experimental and Light Sport Aircraft (DAR-F), will explain the process and regulations of building, certifying, flying and maintaining your own aircraft. Greg is a long-time Experimental Aircraft Association (EAA) member of EAA Chapter 166 in Hartford, aircraft builder and EAA Technical Counselor. This is an excellent opportunity to get your questions about Experimental Amateur Built Aircraft addressed. There will also be an opportunity to see the school's RV-12, which is under construction, by the students. They hope to fly their RV-12 in 2018. Light refreshments provided.

**Directions:** This seminar will be held in the auditorium. Parking is on the North side of the school. See map link for directions.Changes: 100 Seats added. Please Register and Attend.

#### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
